### **IP Power 9258 Box Installation**

Connect Power in cable and network cable (RJ45) to your HUB and connect the control device . Put attached CD in CD-ROM.

#### **Connectors Illustration**

The diagram below illustrates the typical connection of the **IP Power 9258.** 

#### 2. Software introduction

#### IP Power 9258 Software information

Step 1 : Insert attached CD and the following wizard will AUTO jump.

There are 2 topic for 9258 : Manual and Driver

- 1. Manual: With 9258 Manual please check as setting .
- 2. Driver : Include search dynamic IP address program : ipeditv4.exe, .

Step 2 : Please copy **ipedit.exe** in your HD, and execute **ipedit.exe** to find 9258 dynamic IP address easily. You can find IP address in this Ethernet , **ipedit.exe** will show the information for reference. Double click the IP address, you can get in the webpage. Please type in Username : admin and Password :12345678 and you can get in the 9258 webpage.

Pic Step1: Auto Run from the CD :

#### Pic 1 of Step 2: Segment **192.168.100.XXX**

Name	新版本測試				
Gateway	192	168	100	254	
IP	192	168	100	54	
Netmask	255	255	255	0	
HTTP Port1	80				
HTTP Port2	8080				
MAC	00:92:00:00:00:3D				

- **Note:** \* If can not get in the webpage through IP EDIT, please refer attached note to setup the network segment.
  - \* If can not get IP address from Ipedit , probably 9258 IP address "192.168.10.100" had been used in your Ethernet , please connect 9258 direct to your PC ( by RJ45 ) and change the 9258 IP by Ipedit .
